PROFESSIONAL SUMMARY

Motivated and enthusiastic Computer Science graduate with hands-on experience in frontend web development. Skilled in building responsive and user-friendly web applications using modern web technologies. Passionate about creating clean, efficient, and interactive interfaces and continuously learning new technologies to build better solutions.

PROJECTS

Country Information App

- Developed a responsive web application using HTML, CSS, and JavaScript.
- Integrated a country information API to display country details dynamically.
- Designed a clean and user-friendly interface for better user experience.
- Deployed the application using Vercel.

Weather App

- Built a weather application using HTML, CSS, and JavaScript.
- Integrated a weather API to display real-time weather information.
- Created a responsive design that works across different devices.
- Deployed the project using Vercel.

Multi Hotel Management System

- Developed a system to manage multiple hotel branches efficiently.
- Implemented modules for Hotel, Room, Customer, Booking, Staff, Payment, and Reports.
- Designed database relationships using Primary Keys and Foreign Keys.
- The system helps in automating hotel operations and reducing manual work.

CAREER OBJECTIVE

To start my career as a Frontend Developer where I can apply my skills and grow professionally while contributing to innovative and impactful web applications.

CERTIFICATION

- IBM full stack web development from Coursera
